

Internship

Data & Reporting Intern

May 2024 – Aug 2024

Bitzure

- Automated extraction of 25,000+ business and customer records.
- Built dashboards for sales trend and campaign analysis.
- Reduced manual data processing effort by approximately 60%.

Projects

InternshipIQ – Internship Aggregator & Scraper System | Python, FastAPI, Pandas, MySQL

Jan 2026 – Present

- Built a job aggregation platform processing 10,000+ internship listings from multiple sources.
- Developed REST APIs using FastAPI for skill-based filtering and recommendations.
- Designed profile-matching algorithms for internship recommendations.
- Automated extraction and cleaning workflows using Regex and Requests.
- GitHub: InternshipIQ

Surge Price Prediction System | Python, Scikit-learn, Pandas, NumPy

Nov 2025

- Developed a regression ML model using 10,000+ ride records to predict surge pricing.
- Performed feature engineering and preprocessing to improve prediction accuracy.
- Evaluated performance using MAE and RMSE metrics.
- Built a real-time fare estimation interface based on user inputs.
- GitHub: Surge-Price-Prediction-Research-Paper

Java Book Management System | Java, OOP, Collections

Aug 2025

- Developed a console-based library system for inventory management.
- Implemented borrowing, returning, and tracking functionality.
- Applied OOP principles and file handling for persistent storage.
- GitHub: Library-Book Management

Training

Data Structures & Algorithms using Java

Aug 2025

Cipher School

- Completed structured training in Java fundamentals and DSA concepts.
- Strengthened problem-solving skills through coding exercises.
- Certificate: View Certificate

Certifications

• Oracle AI Foundations Associate – Oracle University
Certificate Link

May '26

• Earned 58 Salesforce Trailhead Badges
Salesforce Trailblazer Profile

Jan '26

• Fundamentals of Network Communication – University of Colorado
Certificate Link

Aug 2025

• Introduction to Hardware and Operating Systems — IBM (Coursera)
Certificate Link

Sep 2024

Achievements

• Selected as an official Contributor for GirlScript Summer of Code 2026 (GSSoC'26)
• Secured Rank 1 among 200 teams in University Hackathon "Techlingua"

May 2026
Feb 2024

Technical Skills

Languages: Java, Python

Frontend: HTML, CSS, Bootstrap, JavaScript

Machine Learning: Pandas, NumPy, Scikit-learn, Regression Models

Backend & API: FastAPI, REST API Development

Database: MySQL

Tools: Git, Web Scraping, Regex, Data Cleaning

Concepts: OOP, DSA, Feature Engineering, Model Evaluation

Education

Lovely Professional University

2023 – Present

B.Tech in Computer Science and Engineering; CGPA: 8.0

Punjab, India

Jay Tech International Senior Secondary School

2020 – 2021

CBSE Class 12th — Percentage: 93%

Tamil Nadu

Jay Tech International Senior Secondary School

2018 – 2019

CBSE Class 10th — Percentage: 89%

Tamil Nadu
